BOGUS CHECK PASSER DOES BUSINESS HERE

Sheriff Mansfield is making strenuous efforts to learn the whereabouts of a smooth-tongued stranger who breezed into town last Friday, posed as a bank detective of Fresno and passed worthless checks aggregating $75. Vic Bernasque, proprietor of the hotel at Five Points, indorsed the worthless paper and is particularly anxious to discover the whereabouts of the "officer."

The stranger, who gave his name as "Emmet Riggins," arrived in Redwood City Friday and approaching several of the town officers, stated that he was here for the purpose of arresting a check forger supposed to be in Redwood. Riggins said he was employed by the First National Bank of Fresno.

Towards evening Riggins went out to the Bernasque resort, struck up an acquaintance with the proprietor and finally induced him to endorse a check for $25 on the Seaboard National Bank of San Francisco.

Riggins later entered the Bell theater, having gained free admittance by displaying a detective's star. While seated in the show house he coolly puffed a cigarette and when asked to discontinue smoking, he told the usher that he was a detective and showed his badge. Manager Nathhorst of the theater is a deputy constable and using his authority, he conducted the stranger to the street.

Saturday night Riggins was arrested by Night Watchman Collins, whose suspicions had been aroused. Although it was believed Riggins had been merely impersonating an officer, he was charged with carrying concealed weapons and taken before Recorder James Hannon. The recorder fined the prisoner $50 and turned him over to the custody of Jailer Oliver J. Parker. Riggins asked Parker to accompany him to Bernasque's where he said he would raise the amount of the fine.

On reaching the Five Points resort, Riggins greeted Bernasque familiarly.

"Hello, Vic," he exclaimed on catching sight of the proprietor, "will you cash a check for $50 for me?"

"Sure I will," answered Bernasque, and he proceeded to attach his signature to the check.

Jailer Parker says it seemed apparent that his prisoner and the hotel man were close friends and for that reason he did not interfere with the endorsement of the check by Bernasque. The hotel man finally cashed the check, Riggins paid his fine and on being released, immediately left town.

Today the first check for $25, which was endorsed by Bernasque and cashed at a Redwood City bank, was returned marked "no funds." Naturally, the police believe the other check for $50 is also spurious.

Riggins is described as an affable young man of about 20 years. Circulars have been sent broadcast asking for his arrest.

DEMENTED PRISONER SETS FIRE TO COUNTY JAIL.

After setting fire to the county jail where he is being held pending an examination by the insanity commission, William A. Benton awakened Jailer Parker by his cries and attempted to choke him and throw him into the flames at 4 o'clock Monday morning.

A desperate struggle ensued. Parker succeeded in drawing a blackjack and knocked Benton unconscious.

With other prisoners Parker put out the fire, which had done nominal damage.

Benton was arrested at Halfmoon Bay Sunday. A match in Benton's pocket had been overlooked. Two hours later he attempted to set the jail afire.

Benton was sent to Agnews hospital Tuesday afternoon.

BE SURE YOUR MATCH IS OUT, THEN GO AHEAD.

"Be sure your match is out. Break it in two before you throw it away."

The forest service has thus amended rule one of the familiar "Six Rules for the Prevention of Fire in the Mountains," believing that in this form it will remind inexperienced campers to pinch out the glowing stems of their matches, as mountaineers instinctively do.

Cards, vest pocket size, bearing the six rules on one side and the state game laws on the other are now being distributed by forest officers.

Gabe Einstein in the Hospital

Gabe Einstein, the well known and popular merchant, was taken to the Red Cross hospital in San Mateo Tuesday for a critical operation. He passed through the ordeal safely and there is every hope of his early recovery. Mr. Einstein has leased the ground floor of Thiel's building on Main street and as soon as his health is recovered will open a first class shoe store.

E. B. Fox and family have returned from a month's vacation spent in the wilds of Plumas county

RAILROAD COMPANY MAKES CHECK OF CARELESS DRIVERS

Most of the railroad accidents are due to carelessness. The railroad people are constantly admonishing the public to be watchful, but the public is heedless of danger, and no number of fatalities seems to serve as a warning, "Stop, Look and Listen," before crossing the track, is the company's constant admonition. Few people follow it and the fact that the loss of life is not greater is more due to Divine intervention than any other agency.

Redwood City is no exception to this rule of carelessness. For the purpose of accurately ascertaining just how thoughtless the local people are, the railroad company stationed a man at the Mound-street crossing, the most dangerous within the city limits, where many lives have been lost, June 22d, with instructions to keep tab on the number of people that crossed the tracks and the degree of caution shown by each.

His record of the crossings during the 24 hours is as follows: Automobiles 416, teams 542, motorcicles, 40, pedestrians 676, bicycles 341.

Of the automobile drivers, none stopped at the crossing and looked either to the right or left; 51 kept going and looked one way; 44 kept going and took a hasty glance in both directions; 321 kept going and looked straight ahead, and 10 crossed over at high speed.

Of the drivers of teams none stopped; 40 looked neither way; 61 looked both ways, and 441 crossed without looking in either direction.

Of the motorcycles, none came to a stop; 14 kept going and looked one way; 10 looked both ways; and 11 looked straight ahead.

Of the pedestrians none stopped before crossing; 188 kept moving and looked in one way; 80 looked both ways, and 384 looked in neither direction.

Of the bicycles, none came to a stop; 131 kept moving and looked in one way; 56 looked both ways, and 154 crossed without taking the precaution to look in either dicection.

Considering that there are four tracks at this crossing and the average train movement per hour, both ways, is 5.17, the 1300 and more people who crossed without either stopping, looking or listening on June 22d, owe thanks for the protection of a Kind Providence. They may not be so fortunate another time. Providence has provided its people with common sence and they are supposed to make use of it.

Board of Trade Meeting.

The mercantile branch of the Board of Trade held a meeting at the secretary's office Tuesday evening. An amendment to the city ordinance was considered which will protect the local merchants in their business. This ordinance will be offered to the city council at its next meeting for adoption.

Officer Improving.

Officer Reilly of San Mateo, who was stabbed by one John Hogan of Oakland, whom he arrested a week ago on a charge of vagrancy, is making satisfactory progress toward recovery. District Attorney Swart has placed a charge of assault with a deadly weapon against Hogan, who is confined in the county jail.

Body Recovered.

The body of Tim Kinneally, recently drowned in Spring Valley lakes was recovered Thursday and was in a remarkable state of preservation. A coroner's jury the same night rendered a verdict of accidental drowning.

COUNTY REPRESENTATIVE GOES ON EASTERN TRIP.

John S. Ross, the field agent for the Tourist Association of Central California, paid the county a visit last week for the purpose of acquiring information dealing with the strong points of this community, which he hopes to spread broadcast throughout the East, for which he leaves in the near future on his first publicity campaign.

Mr. Ross during his stay here was introduced to many of the county's leading citizens by the association's representative. He was highly pleased with the natural beauties that greeted his eye everywhere. He takes with him to the East a large number of booklets issued by the Development Association. The field agent declares that he understands thoroughly the value of San Mateo county's proximity to San Francisco and because of this, as well as many other reasons will do his utmost to make known San Mateo county's true worth on his advertising tour.

One great argument that impressed itself in Ross' mind was good roads, and this fact will be told everywhere to the autoists of the United States as well as the farmer. He will tell them of the wonderful chain of roads now in existence and of the miles of highways in the course of construction and of the planned highways to be built in the immediate future.

AMAZING FIGURES ON STATE'S LOSS OF LIFE

The report of the statistican of the Industrial Accident commission of the State of California for the first six months of 1914 has just been made. It shows some startling figures relative to the extraordinary heavy toll of industry in terms of human lives and bodly injuries. A total of over 26,000 accidents have been reported to the commission during the first half year ending June 30th. Of these, 25,465 resulted in temporary disability, and 223 resulted in death. During the month of June alone over 7500 accidents were reported, 10 of which were death cases, while 148 caused permanent disability.

CITY OFFICIAL PAPER

D. E. O'KEEFE, Editor and Proprietor

For U. S. Senator,
SAMUEL M. SHORTRIDGE.
For Governor,
JOHN D. FREDERICKS.

P. P. Chamberlain, who has guarded the cash box of the county for 30 years, will be elected by a larger vote than ever before. He has performed his duties so well that the taxpayers are going to continue him a guardian of the treasury for another four years.

Roy W. Cloud and Joseph H. Nash are being congratulated by their friends in being so fortunate as not to have opponents at the coming primaries. They are the only two county officials so favored, as all the other office holders have opponents. They certainly may be congratulated. The time for filing nomination papers expired on Thursday.

Assessor Hayward will without doubt be returned to his office with the usual majority. Mr. Hayward has made an excellent official. His work has ever been of the highest standard and his courteous treatment of all property owners has won him the esteem of his constituents throughout the county.

County Surveyor James V. Neuman, who has held his office with credit for seven years, and who has outlined and supervised all the preliminary work of one and a half million dollars on the highway system, is a candidate for re-election and will receive a hearty endorsement for the splendid manner in which he has conducted the affairs of his department of the county government. Mr. Neuman has a large force of men in his employ who are exceedingly loyal to their chief.

Dr. H. G. Plymire, the popular and efficient coroner and public administrator, is making an active canvass for re-election. He has ably and honestly filled the position for two terms, during which time not a single exception has been taken to any of his official acts by taxpayers or anyone else. His record is an enviable one and one that Dr. Plymire may justly feel proud of. It is not a case of whether or not Dr. Plymire will be elected, but how large will be his majority. This is as it should be for the doctor has made a capable and efficient official and should be re-elected by a pronounced vote.

When an official has performed his duties well and has shown efficiency and capability in the conduct of his office he should have a strong hold upon voters for re-election. H. O. Heiner, the popular county recorder, has these qualifications, as the following record of his office during the past four years will demonstrate:

The following statistics show the business of the County Recorder's office during the incumbency of H. O. Heiner, January 1, 1911, to July 1, 1914:

Documents Recorded..... 32,238
(Including 1394 Marriage Licenses and 3510 Birth, Death and Marriage Certificates)
Total amount of fees to County..$39,166 75

He gives employment to eight deputies and copyists.

The business of his office has increased about 600 per cent in ten years and is still increasing.

All documents received indexed, copied, compared, re-indexed and mailed out to clients in an average of FOUR DAYS.

Compare this office with other County Recorders' offices throughout the State (ask some one who knows) and then RE-ELECT H. O. HEINER COUNTY RECORDER.

For the best interest of San Mateo county Henry Ward Brown should be returned to the Assembly for another term. Not alone has Mr. Brown the advantage of several years' experience in legislative work, but he has a record of always being right in matters concerning the interests of the county which he has represented, both valuable assets at this time. With the advantage of his knowledge of the methods of work in the Assembly, Mr. Brown is better fitted to secure results than would be any man, no matter how great his ability, who appeared in the legislative halls for the first time. That he is a hard worker, not alone in the interest of his immediate constituents but of the state at large, is amply demonstrated by his past record. Always an adherent of the principles of the Republican party, with a sanely progressive turn of mind, the interests of the county and state will be safe in his hands.

No other public office in the county so directly concerns the general people as does that of tax collector. He is the one county official with whom practically every member of the community must come in direct contact at least once each year. For this reason it is essential that coupled with unquestioned business ability, this official should be one of pleasing personality and accommodating disposition, and for the good of the community it is best that when a man is found who fills these qualifications he should be retained in office.

It is probably due to a realization of these facts that practically no opposition has developed in San Mateo county to the re-election of Tax Collector McSweeney. During the term he has filled the office he has thoroughly demonstrated his fitness for the position. At no time in the history of the county have the affairs of the office been conducted in a more businesslike manner. When the time for the payment of taxes has arrived his office has been found ready for the work and his collections have been made without error. At the same time he has endeavored to make the payment of taxes as slight a burden as possible, always regarding the accommodation of the public as of more importance than private convenience.

REDWOOD CITY TO HAVE THIS YEAR'S POULTRY SHOW

The executive board of the San Mateo County Poultry Association has decided to hold the third annual exhibit in this city November 12th to 15th. Arrangements have been completed for the use of the Horace Hawes gymnasium during the show week.

At the last exhibit of the association, held in San Mateo, 650 birds were shown and awards distributed consisting of silk ribbons for each breed and variety exhibited, twenty-four silver cups, ten trophies and $125 in cash. This year the association will have a greater number of entries and a still greater number of prizes.

There are a great many people owning birds for which they paid good prices, bought them for pure bred birds, yet are not sure of their quality. To these people it might well be suggested that there is but one way to find out how good or poor your birds are, and that is to enter them at the next show and let them compete with others in their class. Never having shown before entitles one to enter birds in the "novice class," for which special inducements and awards are set aside in addition to the right to open competition for the regular awards. Write to the show secretary, Fred West, box 701 Burlingame, for further information, or see either C. H. Woodhams or Capt. W. W. Hastings in this city.

INTERESTING RECORD OF COUNTY'S SCHOOL WORK

County Superintendent of Schools Roy W. Cloud has finished his report for the State Superintendent of Public Instruction and as it contains a great amount of data which should be of interest to the general public we have taken some of the figures which are herewith presented.

The facts given first are for grammar and primary schools. High school figures will be given later.

The number of teachers employed were 129, nine men and one hundred and twenty women. Of this number 6 hold high school certificates, 120 grammar grade certificates, 1 primary certificate and 2 certificates. The average salary for men teachers was $1760 and for women $889.78. It is doubtful if this average is equaled in another county than San Francisco. The superintendent of schools made 250 visits while trustees visited 406 times. There are 40,666 volumes in the school libraries and school was maintained an average of 200 days in every school in the county. Three thousand and ninety-eight pupils were in average daily attendance as against 3704 for last year. This gives an increase of five teachers.

The enrollment for the year was 4617, 2411 boys adn 2206 girls. More boys enrolled in every grade but the 6th, where there were 207 girls to 199 boys. The only school of any size with more girls than boys was Burlingame which had 199 girls and 171 boys.

As to finances there was a balance on hand July 1, 1913 of $79,161.25. The State apportioned $65,682 and the county $83,690.60, while $28,173.22 was raised by special taxes and $46,211.65 came from bonds etc., making a total in the fund of $302,828.72. Of this amount $253,163.25 was expended for school purposes, leaving a balance on hand July 1, 1914 of $49,665.47. Each pupil enrolled cost an average of $37.36. It might be interesting to note the expenses of the five largest schools, exclusive of buildings: Burlingame expended $13,412.00, Jefferson (Colma & Daly City) $31,493.38, Redwood City $18,284.96, San Mateo $36,631.00 and South San Francisco $15,082.70.

The estimated valuation of school property is $576,600, and the school bonds outstanding amount to $265,600.

High school statistics are as follows:

Halfmoon Bay high school expended $8,444.21, San Mateo $37,344.03; Sequoia $14,148.30 and South San Francisco high $3,692.81, a total of $63,629.35, an average cost of $134.95 for each pupil enrolled. Two hundred and twenty-three boys and 242 girls attended high school and the daily attendance was 307. The estimated valuation of high-school property is $379,765, and the bonded indebtedness is $217,000. The average salaries paid to men teachers for the year was $1705.50 and to women teachers $1276.

Violated City Ordinance.

In their second trial before Recorder Hannon Thursday, H. Jacoby and B. Heskins were found guilty by a jury of a violation of the town ordinance which requires the taking out of a special license for the conduct of a place of business which advertises the sale of bankrupt stock with the claim that the goods are being sold at less than manufacturers cost. Complaint was made against the men by Marshal Coleman about the first of this month when he found them conducting a business of this class without a license. The jury recommended the defendants to the mercy of the court and Judge Hannon accepted the recommendation, making the fine for each defendant $50 and costs.

Mr. and Mrs. Antone Genochio have been in Santa Cruz for the past week visiting their daughter, Mrs. Dixon. Miss Lila Genochio has returned from Daly City where she was the guest of her sister, Mrs. E. Pescaro.

Judge Buck Given Surprise.

Judge Buck was given an agreeable surprise in open court on Thursday when George C. Ross read a set of resolutions endorsing him for Superior Judge by the local bar. Mr. Ross in presenting the resolutions delivered a brief but appropriate speech. He said the members of the bar of San Mateo county had met shortly before the opening of court and had unanimously adopted the resolution he was about to read endorsing his honor for the position he now so ably fills and agree to vote and work for Judge Geo. H. Buck for Superior Judge. Mr. Ross explained how the judiciary had been taken out of politics and how every lawyer was free to support whom he pleased for the judiciary, regardless of his party affiliations. Mr. Ross laid particular stress on the fact that every member of the local bar favored the election of Judge Buck. The judge was much effected by the reading of the resolutions and the remarks of Mr. Ross and showed considerable emotion. The judge expressed his thanks for the kind sentiment contained in the resolutions which are as follows:

"Resolved, by the San Mateo County Bar Association, that Judge Geo. H. Buck, be, and he is hereby, endorsed for the office of Superior Judge of San Mateo county, and the voters of said county, irrespective of politics or party affiliation are urged to support and vote for him at the primary election to be held on August 25th, 1914.

We hereby certify that the foregoing resolution was unanimously passed and adopted at a regular meeting of the San Mateo County Bar Association held on the 16th day of July, 1914. GEO. C. ROSS, president; FRANKLIN, SWART, secretary.

Teh program for this evening will include a popular Keystone comedy, one of the laughing hits of the season. There will be a complete change of program each evening and, with the single exception of Monday, popular prices will prevail.

Made a Good Record.

It is generally conceeded that District Attorney Franklin Swart has made good. As legal advisor of all county, township and district officials, as the attorney for the board of supervisors, as counselor in all juvenile and non-support cases and as public prosecutor, his task is indeed a trying one. With all the increased duties coming from the rapid growth of the county and the mass of constructive work done during the past year, however, Mr. Swart's administration has been free from criticism or scandal. No grand jury has ever questioned his work.

He is a man who worked his own way up. He worked his way through Stanford University and received from that institution his A. B. and Juris Doctor degrees. He thereafter established himself in practice in San Francisco and San Mateo, where he was maintaining an office at the time of his election four years ago. Since that time he has not been affiliated with his former firm, in that the county's work has demanded all his time.

Mr. Swart has not only been endorsed by the people of San Mateo county, irrespective of party, but his standing as a district attorney has been recognized by the district attorneys association of the state in his selection as secretary of that body. His name will appear on all ballots and every registered voter will have an opportunity of expressing appreciation of his work.

Mrs. Arnett will leave Tuesday next for her home in Nebraska after having spent a month here visiting her daughter, Mrs. C. C. Kirtland.

WASHINGTON LETTER

(Special Correspondence.)

Speaking to the Virginia editors recently at the White House, President Wilson declared with all solemnity:

"When the trust bills are passed there will be a tremendous revival of business throughout the country," or words of the same import.

In that sentence the President at last acknowledged there is a business depression, though heretofore Secretary of Commerce Redfield has been bounding around the country declaring that business is booming, and the Democratic national headquarters here are sending out at frequent intervals strenuous claims that the business of the country is all right, and the reports of millions out of work, of shutdown factories, of American gold going to Europe, of the farmer's plight, caused by the Democratic tariff, are merely false reports, designed to fool the voters at the polls next November.

Wilson Is a Dreamer.

President Wilson is a dreamer, a theorist, a man utterly ignorant of business. His favorite anti-trust measures cannot possibly help business. They are far more likely to cripple business. The thing that is hurting business most is depression and stagnation resulting directly from the diminished purchasing power of the American people, which, in turn, has been brought about by loss of employment and fewer pay envelopes.

Three million wage earners either wholly without work or working reduced hours, who have lost their jobs through the Democratic tariff and are spending 40 per cent less than formerly over the counters of retail stores—that is what has hurt business. That is what ailed the H. B. Chaflin Company of New York, and its big chain of associated retail houses. That is why the local merchants whose notes to the extent of $34,000,000 have been indorsed by the Chaflin house cannot pay those notes. They had lost their trade, along with the lost jobs and lost pay envelopes of 3,000,000 idle wage earners, and so could not pay their notes. Neither could the Chaflin Company pay them, having nothing to pay with, because of slow collections and no collections from merchants who had purchased stocks of goods on credit that could not be turned into cash because there was no demand for them.

Europeans Taking Our Gold.

Speaking of the shipment to Paris, June 16, of $4,000,000 in gold coin, and of the sending abroad of $58,220,000 of American gold since the beginning of the present year, the New York Journals of Commerce remarks:

"The country's foreign trade position of increased imports and decreased exports under the new tariff, of course, continued to be the great underlying cause for high exchange, but there were other and special influences at work."

But "the great underlying cause" is correctly stated. It is a cause beside which all other causes shrink into insignificance. Free-trade tariff legislation is the right name for the cause—nothing else. Some day the bankers and moneyed interests will see it in its true light. Then they will all be protectionists.

The unwillingness of foreigners to accept American securities in settlement of debts and balances is cited in a Paris cablegram explaining the big shipments of American gold, amounting to more than $50,000,000 in June. This refusal of the foreigners is not at all strange. In times of free-trade depression in practically all lines of business American securities are not desirable properties. When we have protection prosperity again the foreigners will be glad enough to get American securities. Moreover, we shall have less imports, more exports and bigger trade balances than we are having under free trade, and less need of sending abroad either gold or securities.
